## Developer Solutions

Technosoftware GmbH offers Software Solutions for development of OPC server and client applications. All SDKs are available either in binary form (DLLs, Libraries) or source code form (C#, C++). The Solutions are intended to be used by software developers to develop their own products. Every developer using the Solutions requires an individual license. Licenses available are the Single Developer License, Company Site License and the Source Code License. For the applications developed with one of these licenses no additional royalties or run-times fees are required.

Included in a license are:

- Any application developed with the solutions can be delivered to an unlimited number of customers (no royalties)
- For licenses purchased from 01-JAN-2021 on upgrades, updates and fixes are delivered [here](#) free of charge, if/when they are made available.
- Hotfixes for customer specific issues requires the purchase of an [OPC UA Support Subscription](#) first.
- For technical support, direct Email contact or remote sessions you need to purchase either an [OPC UA Support Subscription](#), a [Support Email Incident](#) or a [Support or Consulting Hour](#) first.

## Why Technosoftware GmbH?...

### ➤ Professionalism

Technosoftware GmbH is, measured by the number of employees, truly not a big company. However, when it comes to flexibility, service quality, and adherence to schedules and reliability, we are surely a great company which can compete against the so called leaders in the industry. And this is THE crucial point for our customers.

### ➤ Continuous progress

Lifelong learning and continuing education is, especially in the information technology, essential for future success. Concerning our customers, we will constantly be accepting new challenges and exceeding their requirements again and again. We will continue to do everything to fulfill the needs of our customers and to meet our own standards.

### ➤ High Quality of Work

We reach this by a small, competent and dynamic team of coworkers, which apart from the satisfaction of the customer; take care of a high quality of work. We concern the steps necessary for it together with consideration of the customers' requirements.

### ➤ Support

We support you in all phases - consultation, direction of the project, analysis, architecture & design, implementation, test and maintenance. You decide on the integration of our coworkers in your project; for an entire project or for selected phases.
